

SENATE VOTES SOON ON TARIFF BILL

EXCELLENT PROGRESS BEING
MADE ON THE MEASURE.

Important Work Wednesday—Hawaiian Treaty of Reciprocity and Other Features Agreed Upon—Senator Turpie of Indiana Makes a Speech Against the Bill.

Washington, July 1.—As a result of the rapid work on the tariff bill Wednesday the close of the long debate in the senate and the final vote on the bill is felt to be very near at hand. Two of the most important provisions—those relating to the Hawaiian treaty of reciprocity and the duty on coal—were perfected, while another source of much conflict, the reciprocity section, was matured by the finance committee and presented to the senate. Aside from these larger items a great many minor ones which have caused more or less conflict were disposed of. The Hawaiian provision of the house bill was restored after brief debate and without the formality of a vote. This has the effect of leaving the Hawaiian treaty of reciprocity in full force and effect.

During the day Mr. Turpie (Ind.) spoke in support of the amendment for a 2 per cent tax on inheritances. Mr. Turpie spoke of the statements frequently made as to the straits of the United States treasury, its insolvency and bankruptcy. Such statements were unwarranted and tended only to shake public confidence. Today there was a large surplus in the treasury, the last official statement showing \$135,000,000 available cash balance. In sarcastic tones Mr. Turpie declared that the tariff bill was the joint product of two parties—one the party that had come into power last November, the other the party in office. One was a mercenary organization, the other political, and both had entered into a compact for a tariff bill. Mr. Turpie declared that the bill was founded on prohibitory lines, to keep out articles yielding revenue, and in his judgment it could not produce, with all other sources of revenue, \$450,000,000. It would prove a blanket too short to cover the corpus delicti of the annual deficit. The theory pursued was the fallacious one that raising rates raised revenue.

Mr. Turpie bitterly arraigned the bill, saying that no measure had ever been presented making "so large and unprovoked a spoliation of the world's commerce." There was "compound larceny" in nearly every schedule. One-third of the bill was a declaration of war against France, Germany and the continent of Europe. We had hopefully looked toward the trade of South America, but this bill made it almost a penal offense to carry on trade with the people of the southern republics.

The senator said the amendment for an inheritance tax was urged by the minority in good faith as a means of raising revenue. It proposed but a small contribution for the support of the government under which the present beneficial rules of descent prevail. It afforded a means of reaching the vast accumulations of wealth, in the hands of trusts and individuals, which in time must be touched by death and distributed through the channels of inheritance.

Great Floods in Russia.

St. Petersburg, July 1.—The lower Danube has overflowed its banks and flooded a vast section of country. The town of Kilia, in Bessarabia, on the river Kilia, the north arm of the Danube delta, thirty miles from its mouth, is submerged. The terrific current has already destroyed 400 houses, and it is feared that the whole town, whose population is 7,000, will be wiped out unless the flood quickly subsides. Already the people are suffering for the want of provisions, and there is danger that starvation will be added to their other dangers.

Cornell Freshmen Win.

Poughkeepsie, N. Y., July 1.—The three-cornered freshman race over the Poughkeepsie course Wednesday evening resulted in a substantial victory for Cornell. They won by nine-thirds of a length, Columbia second by three-quarters of a length over Pennsylvania. The official time: Cornell, 9:21 1-5; Columbia, 9:22 3-5; Pennsylvania, 9:23 1-5. The Cornell freshmen rowed the same slow stroke that won the varsity race last Friday. Columbia endeavored to row the English stroke as taught by Mr. Cowles, while the Quakers rowed the old professional stroke of Ellis Ward.

Solving the Mystery.

New York, July 1.—The headless body in the morgue has been identified by ten men as that of William Gulden-suppe, a rubber in a Turkish bath establishment in this city. The head is lacking to complete the body. Gulden-suppe had recently been living with Mrs. Augusta Nack, who left her husband for Gulden-suppe. She is held a prisoner at police headquarters and will be charged with the murder.

Will Go to Russia in August.

Paris, July 1.—President Faure has informed the cabinet that he had received a letter from the czar expressing the pleasure it would afford his majesty to receive him at the Peterhof palace. M. Faure added that he had decided to start for Russia at the middle of August.

CHAPMAN IS CHOSEN.

Will Lead Ohio Democrats—Free Silver Indorsed.

Columbus, Ohio, July 1.—The Democratic state convention was a free-silver convention throughout. While there were some differences of opinion about adopting the anti-trust and Cuban resolutions, there was not a dissenting voice in the convention to the declaration for the free and unlimited coinage of silver at the ratio of 16 to 1 without the co-operation of any other nation.

W. W. Durbin, chairman of the state central committee, called order at 10:35, and introduced the Rev. Eben L. Rexford, of the Universalist Church, who invoked divine blessing, after which Chairman Ulric Sloane advanced to the front of the stage to read his exhaustive key-note.

In his speech he said in part: "It is expected that your temporary chairman shall strike the 'key-note' of the coming campaign. Well, that 'key-note' shall be sounded on a silver chord. It will be no new note but a prolongation of that sounded by the national convention at Chicago last summer and one that has grown in power and volume since carried in a grand diapason of more than 6,000,000 voices to the polls last November."

Gen. A. J. Warner, president of the National Bimetallic league and chairman of the committee on resolutions, read the platform, which merely repeats the financial plank of the Chicago platform. A plank denouncing trusts was unanimously adopted by the convention. Another report, recognizing the belligerency of Cuba, was heard with much applause and made a part of the platform without a dissenting vote. The anti-trust plank reads: "We declare all trusts and monopolies hostile and dangerous to the people's interests and a standing menace to the perpetuity of our free institutions, and we demand the vigorous enforcement of all anti-trust laws and such additional legislation as is necessary for their immediate and final suppression."

The silver plank is as follows: "We declare that the act of 1873 demonetizing silver without the knowledge or approval of the American people, has resulted in the appreciation of gold and a corresponding fall in the prices of commodities produced by the people; a heavy increase in the burden of taxation and of all debts, public and private; the enrichment of the money-lending classes at home and abroad, the prostration of industry and the impoverishment of the people."

The various candidates for governor were placed in nomination. They were as follows: Paul J. Sorg, Allen V. Smalley, Allen W. Thurman, D. D. Donavin, Robert T. Hough, H. L. Chapman, Judge Samuel M. Hunter, Judge John M. Vanmeter, Judge A. W. Patrick, Jesse Lewis withdrew Hough before the ballot proceeded.

The full ticket is as follows: For governor, Horace L. Chapman; for lieutenant governor, Melville D. Shaw; for supreme judge, J. P. Spriggs; for attorney-general, W. H. Dore; for state treasurer, James F. Wilson; for board of public works, Peter H. Degnan; for school commissioner, Byron H. Hurd. Mr. Chapman made a vigorous speech of acceptance, promising to stump every county in the state in the interest of silver.

A motion was made to indorse W. J. Bryan for the Presidential nomination in 1900, but under the ruling of the chair there was a substitute for three cheers for Bryan, which were given with much vigor, after which the convention adjourned.

The silver Republicans held a conference and expressed great indignation. They appointed a state committee to call a convention to nominate a separate ticket. The Populists also announced that they would hold a state convention and have a separate ticket. The Prohibitionists will have two separate tickets, so that there will be at least six state tickets in the field.

Great Meeting of Churches.

London, July 1.—The pan-Anglican, or, as it is officially called, the Lambeth conference, began Wednesday with a private devotional service in the chapel of Lambeth Palace, the official residence of the Archbishop of Canterbury. There are some 200 prelates of the various churches in communion with the church of England in attendance, including, besides all the archbishops and bishops of the churches of England, Wales, Scotland and Ireland and the British colonies, The United States is well represented.

Trial Is Delayed.

Havana, July 1.—The trial of the Competitor crew will not take place on July 1, as has been reported. It may not take place for several months yet, unless the United States government presses the matter. The authorities here realize the fact that if the laws of Spain mean anything and are not to be brought into disrepute, the sentence of the Competitor filibusters must be a severe one. On the other hand, Spain does not desire to aggravate any hostile feeling that may already exist in the United States against her.

Gen. Woodford Takes the Oath.

Washington, July 1.—Stewart L. Woodford, the new minister to Spain, called at the state department Wednesday and took the oath of office. Mr. Woodford expects to sail for his post about July 20.

FURTHER DETAILS OF THE ACCIDENT

THREE ARE DEAD AND TWENTY-ONE INJURED.

Endeavor Trains Collide—That More Fatalities Are Not to Be Recorded Is Considered a Marvel—The Revised List of Those Killed and Wounded in the Smashup.

Chicago, July 1.—Three killed and twenty-one hurt was the fruit of the accident to the Christian Endeavor train at West Chicago. At noon a doleful train of two sleepers, forming a sed contrast with section 4 as it left the depot Tuesday night, arrived at Western avenue. It brought from West Chicago the victims of the accident who were not killed, and their physicians and friends. It was taken over the St. Charles Air Line to St. Luke's hospital, where those who were unable to pursue their journey homeward were tenderly cared for.

The death roll is as follows: GOODING, MRS. JOHN, Austin, Nev.; returning from a visit to her son at Fond du Lac, Wis.

RHODE, JOHN R., a tramp from New York, who was riding on the front end of the baggage car.

SHIPMAN, MRS. R., Ashland, Wis. The following list of injured is furnished by Superintendent Van Ingen. None of the injuries is serious:

Baird, Miss Mary, Neenah, Wis. Blackwood, Miss Daisy, Deperre, Wis. Courtney, Michael, the engineer, Belvidere, Ill.

Finney, W. H., Clintonville, Wis. Galpin, Mrs. Algernon, Appleton, Wis.

Gibson, Mrs. W. D., Appleton, Wis. Gibson, W. D., Appleton, Wis. McAllister, Miss A. L., Oconto, Wis.

McIntosh, Mrs. M. D., Fond du Lac, Wis.

McKay, Miss Amelia, Appleton, Wis. Michelstetter, William, Seymour, Wis.

Miller, Dr. E. A., Clintonville, Wis. March, Mrs. S. B., Appleton, Wis. Pfeiffer, Mrs. A. E., Neenah, Wis.

Ripley, C. E., Fond du Lac, Wis. Ripley, Mrs. C. E., Fond du Lac, Wis.

Russell, Mrs. S. A., Appleton, Wis. Shipman, Miss C. E., Appleton, Wis. Shipman, Miss Sarah, Appleton, Wis.

Williams, L. A., Fond du Lac, Wis.

INDIANS STILL ACTIVE.

Gov. Steunenberg Requests Prompt Interference of Troops.

Washington, July 2.—Senator Heitfeld of Idaho received another dispatch Wednesday from Gov. Steunenberg, dated at Boise, as follows: "Complaints continue. Fences are being burned and cattle killed. Indians come from Lemhi, Umatilla, Fort Hall and Duck Valley reservations. They must disperse or trouble will soon follow."

This was communicated to the interior department and Secretary Bliss immediately wired Agent Irwin at Fort Hall to expedite his telegraphic report of the situation and called upon the agents at Lemhi, Umatilla and the Western Shoshone (Duck Valley) agencies for reports.

Game Warden Manning of Marysville, Wyo., near the scene of the Jackson Hole affair, part of the old Banck hunting grounds, has urged a proposition to disarm the Indians on the Fort Hall reservation. Agent Irwin has taken a decided stand against it.

Cubans Near Matanzas.

Key West, Fla., July 1.—In Havana province operations are active. At Matanzas Brigadier Betancourt defeated the Spanish forces under Gen. Molina. The Spanish loss was twenty-one killed and more than forty wounded. The military commandant of the city of Matanzas telegraphed to Havana for reinforcements, as large insurgent forces were near and he feared they would attack Matanzas and sack the city.

Mother and Daughter Die Together.

Owensboro, Ky., July 1.—Mrs. Pauline Weitmeier and her daughter, Miss Pauline Weitmeier, committed suicide by taking carbolic acid. Both were dressed in handsome clothes when found by neighbors. On a table by the bedside were two glasses which had contained carbolic acid and a note saying they desired to be buried just as found.

Collision in the Dardanelles.

Constantinople, July 1.—A collision took place in the Dardanelles Wednesday between the German vessels Rembeck and Berthilde. The former sank almost immediately, and fourteen of her crew were drowned. A boat that was sent to the rescue by the Austrian guardship was capsized, drowning two.

Presbyterian Divine Dead.

Memphis, Tenn., July 1.—The Rev. E. M. Richardson, secretary of education of the Presbyterian Church in the United States, was found dead in his bed in this city Wednesday morning.

Writers at Eagle Lake, Ind.

Eagle Lake, Ind., July 1.—Among the speakers at the Western Writers' Association convention Wednesday were James Whitcomb Riley and S. W. Gillman.

WHEELS ARE SILENT; THOUSANDS IDLE

STEEL MILLS AND GLASS PLANTS SHUT DOWN.

Coal Miners Are to Strike—Failure to Agree on Wage Scales Causes the Trouble—Many Years Since so Many Men Were Thrown Out of Employment.

Youngstown, Ohio, July 1.—Every mill in the United States, with a few exceptions, whose wage scales are under the jurisdiction of the Amalgamated Association of Iron, Steel and Tin Workers, shut down last night.

These mills altogether employ 25,000 men, who are members of the Amalgamated association, besides those who are not. The general shut-down takes place on account of the failure of the Amalgamated association scale committee and the manufacturers to agree on a puddling rate at the conference held here Wednesday.

The Muncie Iron and Steel company signed the Amalgamated association scale and will continue to work. They signed last year's scale, and this will likely break the manufacturers' combine.

A delegate convention of coal miners of the Pittsburgh district has been called for next Saturday by District President Dolan, at which the miners will decide whether or not a strike shall be inaugurated for a higher rate. The call says all miners, organized and unorganized, will be entitled to representation. In speaking of the matter President Dolan said: "There will be no strike of miners at this time unless the convention decides in favor of such action. If a strike is inaugurated in the Pittsburgh district there is no doubt that the diggers in all other mining states will join in the movement."

It seems that a general strike order was to have been issued, contingent on certain circumstances. These circumstances had not developed, and the plans of the leaders were spoiled by the premature report that the order had been issued. There is a growing sentiment on the part of the miners to strike, and it is probable that but little coal will be dug in the Pittsburgh district after Monday.

SWAMPED BY CROWDS.

The Throng of Christian Endeavorers Taxes Transit Facilities.

Denver, Col., July 1.—The Colorado railroads have made all preparations possible to handle the enormous Christian Endeavor excursion business which began Wednesday and will last at least three days.

The schedules made up in advance from official notifications have been found practically valueless because of the delay of the eastern connecting lines in delivering special trains on time. The Gulf system is called upon to handle several thousand Endeavorers on the famous loop trip from Denver to Georgetown and return. This is a trip taking up about twelve hours, and so thick will the special trains be that all freight traffic will be abandoned on the Georgetown line during the rush. All west-bound trains went out in two heavy sections taking the first installment of Colorado and Kansas people west-bound on the cheap rates.

Plan a Triple Suicide.

St. Louis, Mo., July 1.—At Wells-ville, Mo., Tuesday night three men, lying side by side, with their heads upon the rail, were struck by Wabash train No. 6. The first man's head was cut off, the second man's head was crushed, and the third received serious internal injuries. Physicians say there is no hope for the recovery of the two injured men. They were laborers, and were despondent over their failure to secure work.

No Petition From the Hawaiians.

Washington, July 1.—Captain Julius A. Palmer, private secretary to ex-Queen Liliuokalani, denied that a monster petition was being forwarded here from Hawaii by the ex-queen's subjects in her favor. "The people of Hawaii," he said, "have as yet learned nothing about the treaty having been signed. We were not expecting such an act on the part of the administration, so a petition of the kind mentioned was not deemed necessary."

Declines the Comptrollership.

Danville, Ill., July 1.—Colonel W. J. Calhoun Wednesday telegraphed to President McKinley that he could not accept the office of comptroller of the treasury. Mr. Calhoun was not a candidate for any office, and feels that he cannot accept this one without such a disruption of his family and business affairs as to forbid further consideration of the matter.

Murder on a Battleship.

New York, July 1.—Thomas J. Kenney, master-at-arms of the battleship Indiana, was murdered Wednesday night on board the ship as it lay at its moorings at the Brooklyn navy yard. The murderer, Philip F. Carter, walked up to him and without word of warning plunged a bayonet blade up to its hilt in his back.

Urges Prompt Action.

San Francisco, July 1.—The chamber of commerce unanimously indorses the annexation of Hawaii and urges congress to act promptly.

JUDGE COOLEY AN INVALID.

Is Suffering from Almost Complete Loss of Memory.

Ann Arbor, Mich., July 1.—Judge Thomas M. Cooley, the noted authority on constitutional law, who served many years as justice of the supreme court,

THOMAS M'INTYRE COOLEY.

and who was later the head of the interstate commerce commission, has become a hopeless invalid. His health, already impaired by age and overwork, was further broken down by excessive work on the interstate commerce commission.

FOR MINERS' STRIKE JULY 4.

Mass-Meeting to Be Held at Streator to Decide the Question.

Streator, Ill., July 1.—State Secretary W. R. Ryan of the United Mine Workers' union telegraphs the local officers from Columbus, Ohio, that a general suspension of work has been ordered, to take effect July 4. A mass meeting of miners will be held here today to take action on the matter. Northern fields are against a local or state strike, but will join in a general strike.

Joliet, Ill., July 1.—There will be a strike in the coal fields, or at least this is what W. D. Ryan of Braidwood, the secretary of the State Association of Miners, says, and it is probable that it will not be long coming, either. He has issued a notice to the effect that all miners of the Wilmington fields were requested to meet today in a mass meeting at Glacken's grove. The notice also contains the statement that a national suspension of coal miners is now a certainty. It is said that it is impossible for even the best of the common miners to make more than 90 cents a day under the present scale. The operators claim they cannot pay more than they are now doing.

Electricity Works Death.

Cleveland, Ohio, July 1.—One man was electrocuted Wednesday, another was horribly shocked, and several were severely burned at Nine Mile Creek, in the eastern suburbs. The men were building a stone abutment with the aid of a derrick over the creek. A guy rope went over the feed wire of the Big Consolidated trolley system. Several men took hold of the guy rope to tighten it. Jacob Miller, 65 years old, touched the wire with his hands, and fell dead. Ed McGregor was hurled twenty feet. Three other workmen received dangerous shocks.

Headquarters Go to Cleveland.

Cleveland, O., July 1.—The headquarters of the National Republican committee are to be located in Cleveland. They will be transferred from Washington to the famous Perry-Payne building in Cleveland, where Hanna conducted the national Republican campaign. The Washington headquarters will be kept open, but will be in charge of an attaché of the national committee. Chairman Hanna and Secretary Dick expect to be at the Cleveland headquarters all summer.

Grain Dealers' Election.

Des Moines, Iowa, July 1.—The National Association of Grain Dealers elected the following officers: President, W. F. McCray, Kentland, Ind.; first vice president, J. M. Sewell, Hastings, Neb.; second vice president, E. A. Grabbis, Greenville, Ohio; secretary, W. H. Chambers, Des Moines; treasurer, E. L. Bowen, Des Moines; directors, M. McFarlin, Des Moines; E. A. Clutter, Lima, Ohio; N. B. Hiatt, Willis, Kan.; Harry Knight, Monticello, Ill.; T. P. Baxter, Taylorville, Ill.

Smashed Into a Freight.

Menominee, Mich., July 1.—The special train of Division Superintendent Lindsey of the Chicago and Northwestern, on which were also Assistant Superintendent West and Engineer Palmer collided with a freight train here Wednesday afternoon. The engine of the special was badly damaged and one of the freight cars nearly broken in two.

Russian Policy to Be Changed.

London, July 1.—M. Zinoviev, the Russian minister to Sweden and Norway, has been appointed to succeed Count Nelidoff as Russian ambassador to Turkey. This announcement has caused great surprise, as the appointment is believed to indicate a new departure in Russian policy.

Four Killed by Lightning.

Sioux City, Iowa, July 1.—Charles McCausland, his mother, Mrs. Charles McCausland, his half-brother, Frank Mills, and a girl servant, were killed by lightning Sunday night at Westfield, eighteen miles north of this city. Friends called Wednesday, received no answer, forced the door and found the bodies stretched about the house.

CATCH WILL KIBBE AT HOUGHTON, MICH.

ALLEGED FORGER IS RUN TO EARTH.

Police Find Him Hidden In a Trunk, At the Home of a Friend—Had Escaped From the Jail at Superior—Fond du Lac Alderman Is Sued for Divorce.

Houghton, Mich., July 1.—[Special]—Will Kibbe, a young man who recently escaped from jail at Superior and Marquette, was caught here this morning. He was hidden in a trunk at a friend's house. He is wanted on several charges of forgery at Superior.

Suit For Divorce.

Fond du Lac, Wis., July 1.—[Special]—Alderman A. E. Peters was served with divorce papers today. The suit promises to be a sensational one, as many chas are made.

C. J. Ellis of Marinette Chosen.

Waupaca, Wis., July 1.—C. J. Ellis, of Marinette, has been elected to succeed Colonel Caldwell as commandant of the Waupaca Veterans' Home.

To Aid American Meats.

Indianapolis, Ind., July 1.—Consul General Gowdy has written to friends at Rushville reviewing his experiences in Paris. He was surprised to find a prohibitory order in France against imported beef cattle from America and that no American beef or meats had been consumed by the French army for two years. None can be purchased under present conditions, and as a result beef meats of all kinds are dear in the Paris markets. The consul general proposes to work for a change that will permit the American hog and beef and other meats to be received and sold for food, saying that as America is very generous in its consumption of French products a radical reciprocity is imperatively needed.

To Honor Lincoln's Mother.

Indianapolis, Ind., July 1.—Leading representatives of the Loyal Legion, Grand Army of the Republic, Women's Relief Corps and other organizations met in the executive chamber of the statehouse here for the purpose of considering plans for the erection of a monument over the grave of Nancy Hanks Lincoln, mother of Abraham Lincoln, who is buried in Spencer county, this state, and also to provide a fund for keeping the proposed memorial and lot in repair. A national appeal for public subscriptions will be made by an executive committee appointed for that purpose.

Demand Treaty Rights.

Bakersfield, Cal., July 1.—Recently two Japanese cooks were forced to leave the new mining town of Johannesburg on account of race prejudice. They complained to the Japanese consul in San Francisco, demanding damages and protection in their treaty rights.

Salina, Kan., Bank Closed.

Salina, Kan., July 1.—The Salina State Bank voluntarily went into the hands of the state bank commissioner. The depositors will be paid in full, according to the bank officials' statement. No statement of assets or liabilities is made.

Pardon for Fleischman.

Washington, July 1.—The president has pardoned Charles R. Fleischmann, sentenced in Illinois to five years' imprisonment in the Milwaukee house of correction December 8 last, for embezzling the funds of the National Bank of Illinois.

Army of Tramps in Kansas.

Denver, Col., July 1.—An army of 10,000 tramps, now in Kansas, is moving westward. They infest the wheat and corn fields at night. The tramps are bound for the coast, where they say they will try to secure work in the irrigated valleys of the west.

Twenty Thousand to Strike.

Paris, July 1.—At a meeting of delegates representing the workers in the building trades held here it was resolved to call a strike, and 20,000 men will go out immediately.

Illinois Luther League.

Rockford, Ill., July 1.—The State Luther League convention elected Frank G. Hogland, Rockford, president. The reports show the league now has forty-three societies affiliated with it, with a membership of 2,232, an increase of 664 over last year. The convention closed last night.

Tailors Win Their Battle.

Washington, July 1.—The tailors have won their battle. The Republican members of the senate finance committee agreed in principle to the provision in the house bill limiting to \$100 in value the amount of baggage of persons arriving in the United States that may be admitted free of duty.

COURSE OF STUDY AT SUMMER SCHOOL

INSTITUTE OPENS AT NEW
HIGH SCHOOL SATURDAY.

Noted Educators Will Take Part, Including William Hawley Smith—Drawing Teacher to Come From Boston—The Plan of Work, and Subjects to Be Covered.

On next Saturday, July 12, the Wisconsin Summer Institute and Review school will open at the new High school building. In all probability it will be one of the most successful summer schools ever held in the state. The faculty:

Department of Methods
William Hawley Smith, author of "Evolution of Dood," General topic, "How to Teach."

J. W. Livingston, principal Sparta public schools and institute conductor, "Reading and Language."

Elizabeth Allen, critic teacher State Normal school, Milwaukee, "History and Geography."

D. D. Mayne, superintendent schools Janesville, "Arithmetic."

Department of Music.

S. Lillian Byington, supervisors of music, Moline, Ill. Music for Different Grades—Chorus Work.

Department of Art.

Ellen R. Garfield, National Academy of Design, New York—Drawing, Painting, Sketching.

Department of Physical Culture and Expression.

Janet B. Day, the well known teacher of Elocution and Physical Culture.

Department of Academic Instruction.

A. C. Buell—History, Constitution of State and of United States, Geometry, Algebra.

Mary Holt—Reading, Orthography, Physical Geography, Physiology.

D. D. Mayne—Theory and Art of Teaching, Arithmetic, Grammar, Physics.

Department of Academic Instruction.

The purpose of this department is two-fold. It aims to meet the needs of teachers. There are many teachers who are not content to hold merely a third-grade certificate when the advantages of a higher grade are so apparent. To such the opportunity is offered of pursuing the second and first grade branches under instructors of experience. Again, many younger students desire to acquire their first certificate, and they may take such review work as will be helpful.

Superintendents Thorne and Rose have aided in the arrangement of the program and the outline of the work so that it shall be preparatory to the examinations and most valuable to the teachers in their school work. Their examinations will follow the work of this department.

The school also aims to meet the needs of students in the High schools who desire to do extra work or to make up back work.

U. S. History.

The course in U. S. History will deal chiefly with the national era of our history. A brief review of colonization, showing the characteristic differences in the settlements of different nationalities, will be followed by a critical study of the revolutionary period. Special emphasis is attached to governmental development, which clusters around important themes, as "The Beginning and Growth of the American Congress," "The Four Great State Papers," "Western Extension of Population," "Territorial Acquisitions," "Inventions," "Slavery," etc. Proportional importance is attached to the study of the typical American soldiers and statesmen, as Hamilton, Jefferson, Washington, Webster, Clay, Lincoln, Grant.

Constitution.

The study of the Constitution will be preceded by a study of the "Great Constitutional Convention" of 1789, and a discussion of the political ideas which characterized the two great political parties, the Federalists and Anti-Federalists. The principal differences and points of similarity between the state and National Governments will be noted. The study of the text of the constitution will be with special reference to the application of the acts of congress and the political questions at the day. A brief review will also be taken of the Wisconsin State Constitution. Any good text book will suffice.

Geometry.

The work in this branch is designed to cover Plane Geometry. A previous knowledge of the subject is an advantage, yet one without this may be able to do the work of the class. Spec-

ial attention will be given to original demonstrations in order to develop independent reasoning.

Algebra.

The work on this subject will cover the ground necessary to prepare those wishing to take the county examination, for a second grade certificate. As an elementary knowledge of algebra will greatly facilitate the work of the student, it is recommended that at least the four fundamental operations be mastered as preparation for further work. Special attention will be given to the following subjects: 1. Factoring. 2. Theory of Indices. 3. Radicals. 4. Quadratics.

Orthography, Reading, and Orthoepy.

These subjects will be pursued in one class unless so many shall take this work that a division shall be necessary. In Orthoepy the diacritical markings as found in Webster's Dictionary and the rules for pronunciation as there explained will be thoroughly taught.

Physiology.

A rapid review of this subject will be taken by the topical method. Negotiations are in progress to obtain short lectures by a noted specialist on the organs of special sense. Bock and Steger's Anatomical methods of all parts of the body will serve to make the work in Physiology particularly interesting and profitable.

Physical Geography.

All the most important subjects in Physical Geography will receive consideration. A well stocked Museum and a plentiful supply of Physical apparatus will enable numerous illustrations to be given. Special emphasis will be given to the study of weather maps and to the theories of Continental Formation, Tides, Winds, Earthquakes and Volcanoes.

Arithmetic.

The work in this subject will concern itself chiefly with the following subjects: Writing numbers in words, G. C. D., L. C. M., and the whole subject of Business Arithmetic. A text book will be loaned to those taking this subject.

Grammar.

Those who take this branch may use any text book in their possession. A rapid topical review will be taken which will cover all the parts of speech. The Reed & Kellogg method of diagraming will be carefully explained.

Physics.

It will be impossible in such a short course to take the work as outlined in any text book. Just such parts of the subject as the members of the class shall determine will be taken up with any degree of thoroughness. A well equipped laboratory offers facilities for experiment seldom equaled in a High school.

Theory and Art of Teaching.

Although it is expected that the Methods Department will furnish a very comprehensive course in this branch, yet for those who desire a rapid review of the subject with special reference to the manual of the course of study for ungraded schools an opportunity is here offered. Teachers are requested to bring their manuals to the school.

The Art Department.

The department of Art will be in charge of Ellen R. Garfield, of the Academy of Design, New York City. The department is gotten up for the benefit of Janesville people as well as the teachers. The instructor will be glad to meet all interested.

Those Odd Fellows Suits

Test Case at Oshkosh To Go to Supreme Court.

Proceedings to collect overdue assessments by the assignee of the Wisconsin Odd Fellows' Mutual Life Insurance company will remain in statu quo for a year. The cases against sixty-five of the alleged delinquents were called yesterday in the municipal court, J. L. Fulton, assignee of the company, being the plaintiff, and the name of E. E. Stevens leading the list of defendants.

M. C. Phillips of Oshkosh, and George Lines of Milwaukee, appeared for the assignee, and F. H. Houghton for sixty-three of the defendants.

H. L. Sweet appeared for the defendants. Stanton and Carver of Onro. A. B. Norton of Milwaukee, secretary of the assignee, and Assignee Fulton were sworn for the plaintiff and Mr. Norton and E. E. Stevens for the defense. Judge Goss by consent reserved his decision against Mr. Stevens until July 8.

It was agreed between the attorneys that the Stevens case will be carried to the supreme court and made a test case. In accordance therewith all the other cases were adjourned until March 31, 1898. Besides the above list of sixty-five members of the defunct company, there are several against whom similar claims are pending who are not served with summons.

In this column we from day to day present the store news clearly and concisely, touching on new arrivals, standard values and bargains. Always something here of interest if one would keep posted on the store's movements.

AID 1—Black Wool Baste or veiling, just the thing for a cool summer dress. Received Monday. Width 36 inch; price 50c. It is excellent value, and beautiful, fine quality.

AID 2—Shirt Waist bargains. Overstocked; were 50, 60 and 75c. We have been offering them since Saturday at 25c. One look tells you that they're good to have at such a figure. Don't wait too long.

AID 3—Toilet Sacques, most comfortable garment a woman ever put on. Lovely styles in dainty striped dimity reduced from \$2 to \$1 40. Also all white with wide collars; lovely embroidery on collar and edging sleeves. Fine, sheer muslin; were \$2 25, now \$1 75.

AID 4—Wrappers, white dimity and muslin; very choice styles. About two dozen garments. Although made to sell at two to four times what we ask for them. We have put the price at 98c.

AID 5—In our last "ad." we mentioned black muslin Wrappers with small colored flowers, sheer quality, at \$1.50. To push the sale of them we offer the lot at a figure that will do it—\$1.15

AID 6—McCall Bazar Patterns. We took the agency for them the first of the year, but reluctantly, as we were not very favorably inclined toward patterns. We have been pleasantly surprised by the large number of patterns sold. They give excellent satisfaction, are up to date, easy to understand, sure fitting, and only 10c and 15c. Women tell us (but we know it full well) that it is all nonsense paying high prices for patterns when one can get the McCall Patterns at 10 and 15c.

AID 7—Genuine Shantung Pongee Silk, printed, designs artistic, colors, red, blue, brown, gray, purple; it is 27 inches wide, and we offer it at the former wholesale price, \$6.50 a pattern, which measure 14 3/4 to 15 1/2 yards—just the thing for a light summer dress, and serviceable. Quality limited.

THE OVERFLOW OF LOCAL NEWS.

THE RECEIVERS ARE NAMED.

Court Appoints Men to Take Charge of State Agricultural Association.

C. G. Cox and B. B. Hopkins, both of Milwaukee, were yesterday appointed joint receivers of the property of the State Agricultural society at the State Fair park, with bonds at \$5,000 each.

Gov. Scofield, Atty-Gen. Mylrea and M. G. Jeffris arrived in the Cream City yesterday morning, and appeared before Judge Johnson to make the formal motion for the appointment of the receivers.

Secretary Thomas Fleming of the Agricultural society appeared in behalf of that organization, and said the society did not wish to oppose the appointment of a receiver if that officer would not prevent the society from holding a fair next fall. The name of C. G. Cox was presented by Mr. Jeffris on behalf of the state, and Judge Johnson on his own motion appointed B. B. Hopkins as co-receiver saying the life members of the society should, in his opinion, have a representative to protect their interests.

State Treasurer Testifies.

State Treasurer Peterson was called to the witness stand and examined as to the financial relations of the society and the state. The total indebtedness of the society he said, on the incumbrances on the property is \$201,176.66. This indebtedness is covered by three mortgages, two of which are held by the state. All the amounts, the treasurer said, are still unpaid.

In the discussion before the court, Mr. Jeffris said the state had no desire to interfere with the holding of a fair, and he personally desired to see one held and made a success. The state officers, however, desired to have it fully understood by all parties that the state was not to be expected to pay any deficit that might arise in the society treasury if the fair should not prove a financial success.

Expenses of the Society.

Secretary Fleming told the court the society had issued a premium list at an expense of about \$700, and a considerable amount of other expenses had been incurred. Some three hundred applications had been received from merchants for exhibit space.

After the court had adjourned the interesting parties gathered in the lobby of the Hotel Pfister and discussed the situation. Secretary Fleming said the fair would certainly be held, and preparations would be pushed, now that the uncertainty over the appointments of the receivers was at an end.

"I wish it understood, however," said Mr. Fleming, "that the statutory appropriation of \$1,000 will be due the society, and the ten per cent of the paid premiums allowed the society by law will be collected. The paid premiums amounted at the last fair to about \$2,500, and there is every reason to believe they will amount to about the same figure next year."

Gov. Scofield's Position.

Gov. Scofield said he had no desire to prevent the society from holding a fair. He wished that it be understood, however, that the state was not to be asked to make up any deficit that might arise from the holding of any fair. The state, the governor declared, had already done more than its duty towards the Agricultural society and he did not feel it owed the society any more support.

As a side issue to the appointment of the receivers the state took out a judgment in default against the society in the foreclosure proceedings on the mortgages covering the property at State Fair park. The formal motion was made by Mr. Jeffris for the entry of the judgment and was granted by the court, the society making no appearance. Mr. Jeffris was instructed to draw up the judgment, and it will be signed by Judge Johnson at a later date.

MARRIED FIFTY YEARS AGO

Mr. and Mrs. Volney Atwood Celebrate Their Anniversary.

Fifty years ago yesterday, Volney Atwood and Miss Catherine Holmes were married in the village of Janesville, the ceremony occurring on June 30, 1847. A family reunion in commemoration of the event was held last evening at the home of Mr. and Mrs. Atwood, 51 South Franklin street. Mrs. Atwood is the oldest living settler in Rock county, having come here with her father, William Holmes, on March 9, 1836. Her two brothers had settled in the county the year previous. Mr. Atwood came to Janesville in July, 1837. He is now eighty-five years of age, and Mrs. Atwood is seventy-six. All Janesville people will extend congratulations to these two pioneer residents, with the hope that they may be spared many years to come.

THIS DAY IN HISTORY

1582—James Crichton, the famous scholar and gentleman (The Admirable), was assassinated at Mantua, Italy, aged 25.
1725—The Comte de Rochambeau (Rochambeau), French general in America, born; died 1807. In 1780 Rochambeau reached America with ROCHAMBEAU, 6,000 French allies for the Revolutionary army. The column landed in Rhode Island and by the skill of its leader crossed the country to New Jersey, defeating the British plans by the maneuver. At Yorktown the valiant Frenchman led a decisive assault.

1590—Gottlieb Heinrich von Schubert, philosopher, died near Munich; born 1750.

1862—Battle of Malvern Hill; bloody repulse of the Confederates.

1863—Battle of Gettysburg begun.

1867—Thomas Francis Meagher, Irish patriot and American soldier, while governor of Montana fell from a steamer on the Mississippi and was drowned; born 1823.

1888—Rousing reunion of the veterans of the armies of Lee and Meade on the field of Gettysburg to celebrate the twenty-fifth anniversary of the battle. One of the ceremonies was the handshake across the stone wall on Cemetery ridge of the survivors of Pickett's column and the Philadelphia brigade.

1896—Daniel De Foe, a lineal descendant of the great author, died in San Francisco.

A PROTEST FROM BOIES.

Horace Boies has been on earth long to have all of Mr. Bryan's colishness. He points out to the volitile young spell-binder that the 16 to 1 plan is a dead issue. The voters buried it, under the belief that it meant silver monometallism, pure and simple, which would increase instead of diminish the misfortunes attributed to the single gold standard.

"It matters not," he says, "how we convince the people the gold standard is wrong unless we convince them that what we offer in its place is better instead of worse."

Mr. Boies has taken the right line. He still dreams of the possibility of a silver revival, but refuses to consider the plan that does not provide for honest debt paying and has no love for clipped dollars. His "squeamishness" on these points was suspected by the Chicago convention, and probably had as much to do as anything with his failure to receive the nomination.

SENATOR SPOONER'S PLAN.

Senator Spooner is giving practical application to the much discussed idea of a tariff commission. His plan is believed to meet the objection of congressmen to having rates of duty proposed by an independent body and is said to satisfy a majority of the republican members of the finance committee. It provides for an investigation by the Board of General Appraisers in New York, into the cost of production and other points involved in the competition of imported commodities. The result of the investigation shall be reported to the secretary of the treasury and by him submitted to congress.

Senator Spooner has had ample experience with tariff legislation, and his sound business judgment cannot fail to prove of value when changes in methods are under discussion.

A DIPLOMATIC GHOST STORY.

The story from Berlin that though Russia will not join Japan in protesting against Hawaii's annexation, she regards it as a dangerous precedent, may be disregarded safely. It was not regarded as a "dangerous precedent" for the United States to secure from Russia the territory of Alaska—more remote than Hawaii and menacing another European power in a far greater degree. As a matter of fact the precedent formed by Hawaiian annexation menaces no country in the world except, perhaps, Spain. When annexation comes Spain may feel her tenure of power in Cuba is getting frail, but, as a matter of historic fact, it has been frail for more than a year, or before the present Hawaiian treaty was thought of.

Report says that European money is to be spent to make American sentiment against the ratification of the Hawaiian treaty. The careful reader of a number of prominent newspapers must be convinced that money from somewhere is being spent for that purpose.

The dream of a community in which everybody shall fare alike in all respects is almost as old as the world, but it is still a dream, and will remain such until a new race of men and women, without brains, is created.

The new tariff is now approved by all republicans, and after it has had an opportunity to develop its merits as a prosperity bringer it will be approved by many who have not heretofore been republicans.

Congressman Landis, of Indiana, after going over his district, said: "I know from personal intercourse with

people engaged in all kinds of business that times are picking up every day."

Republicans have no objection to the election of Mr. Bryan or any other popocrat, to the presidency this year, but in 1900 they will see to it that a good republican is elected.

Failing to keep himself before the public in any other way, ex-Senator Hill is working the society columns with a new rumor about his contemplating marriage.

If Eugene Debs is wise he will draw his salary as far in advance as possible, in order to get ahead of the arrival of bankruptcy in the treasury of his scheme.

If the local authorities at Key West had displayed more backbone during the trouble it would have been better for the good name of their town.

John R. McLean doesn't fight openly; that is why he didn't want the Ohio democratic convention to nominate him for senator.

CHICAGO MARKETS BY WIRE

Robert Lindblom's Letter On the Condition of Crops and Trade.

Chicago, July 1—[Special]—The statement of the Cincinnati price current estimatin the wheat crop at 550 million bushels had only a temporary influence on the market. General confidence seems to have taken possession of the wheat market and the sluggish condition of the cash wheat market does not seem to have any discouraging effect on the speculative demand which is now confined entirely to the next crop. Some stimulation was in the markets by the usual budget about crop damage in Romania, but we attach no importance to these reports which are manufactured from day to day to suit speculators. The weather is perfect for wheat and corn. Harvest operations are progressing favorably and there is no doubt any longer about a material improvement from early estimates. Corn has held remarkably firm everything considered. We have private advices from Copenhagen to the effect that the new free harbor of that city contains ten million bushels of American corn which has been bought and is being held by speculators for an advance. Some of the corn is turning black and there is great uneasiness on account of poor condition. This accumulation which no doubt extends to other ports like Hamburg and Bremen explains in a great measure the export demand which attracted so much attention a couple of months ago, but which has almost entirely ceased since then. In the meantime speculators here are also loaded down with corn, waiting and praying for a drought or a frost to help them out. We prefer to wait until the damage has been done. It will be plenty of time to buy corn then and we would rather pay more for it after the damage has been done than to lug it in anticipation of it. Provisions continue firm and have ranged higher than yesterday.

ROBERT LINDBLOM.

Mr. Lindblom recognizes a dull day and appreciates good orders in face of it.

"The feature of the market to-day has been strength in spite of the Price Current's estimate. It looks as though general confidence was coming on a visit, but we are not very enthusiastic on that point. Please accept thanks for orders received."

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which Is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials that we have lately received:

Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure.

Major Dean, of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from Pyramid Pile Cure. I suffered from Piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectually cured me.

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

W. L. WINANS DIES ON BRITISH ISLE

COUSIN OF MRS. FOOTE AND
HON. JOHN WINANS.

Was Thought to Be the Wealthiest Man in England—Built a Railroad for the Czar of Russia—Made a Fortune in Building Lines—Was 75 Years Old.

William Louis Winans, of Baltimore, a cousin of Mrs. E. T. Foote and the Hon. John Winans, of this city, is dead, his demise occurring in England, at the age of seventy-five years. Mr. Winans was the son of the late Ross Winans, of Baltimore, and a brother of the late Thomas Winans. He was a member of the celebrated Winans firm which made a large fortune in this country as builders of railroads. About fifty years ago Emperor Nicholas of Russia conceived the idea of building a railroad joining St. Petersburg to Moscow. While others shrank from undertaking the task, the Winans took it up, and through its execution made a fortune.

While in Russia Thomas married a native, and William married Miss Delarue, an English woman, and returned to England. Both brothers were of an eccentric disposition. William's took the form of a dread of crossing the ocean, and ever since he did so, in 1844, when he went to Russia, he has never been in this country. He often made the remark that he would not cross the ocean for millions. Shortly before his death William Winans was regarded the third richest and one of the most extravagant men in England. He spent money lavishly. He maintained a shooting box in Iverneshire, Scotland, at a yearly rental of \$35,000 and a seaside villa at Brighton.

One of his favorite methods of entertaining his friends, was to treat them to morning concerts at which Patti, Nilsson and other great operatic artists sang.

Mr. Winans, who was about seventy-five years old, leaves a widow and two sons, Walter and Lewis. Both are ardent sportsmen. Walter is an expert pistol shot and has won many cups and prizes offered in England for pistol shooting.

Despite the large amount of money spent by Mr. Winans in high living, his capital never decreased, and he leaves a big fortune to his heirs. He leaves real estate in Baltimore which he inherited from his father.

William H. Hall.

Eagle, Wis., July 1.—William H. Hall, who has resided with his son, Lance E. Hall, of this place, the past sixteen years, died last night, aged 77. He served three years in the Thirtieth Wisconsin infantry. He was born in New York state, was married in 1842 and leaves three sons, L. E. Hall, chairman of the town of Eagle; James Hall of Marshalltown, Ia., and Albert Hall of Janesville.

Funeral of Andrew Ward.

The funeral of Andrew Ward was held at St. Augustine's church, Footville, at 9:30 this morning, Rev. Father Buckley officiating. The interment was made at Mount Olivet cemetery. The pall bearers were James Lavin, James Murphy, Edward Quinn and Michael Newman.

Peter Halgeron.

Beloit, Wis., July 1.—Peter Halgeron, aged 83, an old resident of the town of Newark, died last Tuesday night.

WIDOW ASKS \$5,000 IN THE DRAKE CASE

SUES THE C. & N. W. ROAD FOR DAMAGES.

Her Husband, a Well Known Hardware Salesman, Was Injured In the Chester Train Wreck, and is Said to Have Suffered Concussion of the Brain in Consequence.

A \$5,000 damage suit grows out of the rear-end collision on the C. & N. W. last January.

The widow of E. F. Drake is the plaintiff, and the securing of evidence was begun in Janesville today.

As will be remembered the C. & N. W. passenger train that left Janesville at 7 a. m. January 18, with Al. Shekey as engineer, and Neil Mahoney as conductor, struck the Green Bay express on a siding at Chester. Alex. McNaughton of this city, was engineer of the south bound train and J. Quale of Chicago, was conductor.

The two trains came together "head end."

They were supposed to meet and pass at Chester. One was on the side-track waiting for the other to arrive.

The approaching train was running at a good rate of speed as it approached the station, when people on the platform were horrified to see Engineer Shekey's train turn into the side-track instead of keeping on the main line.

An instant later there was a crash. Passengers on the north bound train were dashed into the seats ahead of them. Supt. F. B. Moulton was standing in the aisle of the smoking car and was thrown headlong. He was considerably hurt. Several other passengers received injuries more or less serious. A. J. Thompson and E. F. Drake, two traveling men from Chicago, who had roomed together in Janesville the night before, sat in the same seat. Both went against the next seat heavily. Thompson had to be helped from the car, and his claim for damages against the road is said to have been allowed without question a few days later.

Drake, who is well known to Janesville hardware men, came back to this city a few days later. He told friends that he had been hurt in the back of the head. He had been leaning back, with his head on the back of the seat and when the trains met his head had jerked back against the seat. He supposed at first that his injuries were not serious but it is now alleged that he had suffered concussion of the brain. His death occurred last month in Chicago.

Attorney Rufus S. Simmons of the firm of Simmons & Winston of Chicago, was in the city today collecting evidence in the case. He refuses to talk to reporters, but the line of his investigations indicated that he had most of his material in hand.

AN ALL STAR BASE BALL NINE.

Beloit Players Will Meet a Good Team in This City Monday.

When the Janesville ball team lines up at Athletic Park next Monday afternoon to meet the best team in Beloit, an aggregation of players will be present that no common nine can beat. Among the players are three members of the state university team, Brownell, Brewer and Blakely, beside Jeffris of the Beloit college team.

The team will play as follows: Carle catcher, Blakely pitcher, Sheldon short stop, Brewer first base, Jeffris second base, King third base, Brownell left field, Johnson center field and Nolan right field.

AFTERNOON ON GOLF LINKS.

Mississippi Club Members and Friends Will Picnic at Buckleton.

The members of the Mississippi Golf club with their families and invited friends will spend tomorrow afternoon at Buckleton links. There will be numerous matches over the ladies' course as well as the long course and later in the day a proper amount of attention will be given to picnic baskets.

The membership of the club has been growing steadily and but a few more lockers remain unrented in the club house. Secretary J. P. Baker will receive appropriations for lockers, list all names proposed for membership, and receipt for dues.

TELLS TROUBLES TO POLICE.

Mary J. Hardin, Causes the Arrest of A. Schandley.

Mary J. Hardin, who resides on Jackson street, walked into the municipal court this morning and swore out a warrant for Abram Schandley, a resident of Benton avenue, charging him with assault and battery. Mrs. Hardin said the story of her troubles would fill a book. She alleges that the defendant assaulted her Saturday night and forcibly took hold of her arm.

In the municipal court at 3:30 o'clock this afternoon the defendant was fined \$5 and costs or a total of \$10.52, which he paid.

CUPID'S PLANS CONSUMED.

Skelly-King.

Adam F. Skelly and Miss Minnie E. King were married at Beloit yesterday afternoon, the ceremony being performed by Rev. W. W. Sleeper at the Congregational parsonage. After the ceremony Mr. and Mrs. Skelly left for Rockford and Chicago on a brief wedding trip, and on their return to Janesville, will take up their residence at No. 8 Walker street, where they will be at home after July 10.

Both Mr. and Mrs. Skelly are well known to Janesville people. Both held positions at the Janesville steam laundry. The bride is a young woman of many accomplishments. The groom enjoys the confidence of all who know him, as he is an energetic, honest, and thrifty young man. Many friends of Mr. and Mrs. Skelly will extend well wishes to the newly wedded pair.

Johnson—Wiltmer.

Conductor James A. Johnson of the C. & N. W. railroad, and Miss Kittie Wiltmer, of Monroe, were married in Chicago yesterday at 4 p. m. by Rev. Father McDonald. They were attended by William Johnson and Miss Jennie Wiltmer. The bride was attired in a moss green traveling suit and carried a bunch of American Beauty roses. They left on the evening train for Denver, Col., and other places of interest in the west. On their return they will commence housekeeping. Well wishes will be extended to Mr. and Mrs. Johnson by their many Janesville friends.

ATTACH THE PIANOS FOR LICENSE FEES

CITY SEIZES A SOMLYO'S ALLEGED PROPERTY.

Firm That Opened a Store at the Bower City Bank's Old Stand Must Settle With the Authorities, or Two Instruments Will Be Sold to Square Accounts.

Whether or not the city of Janesville is entitled to \$100 license money for Arnold Somlyo, is a matter that the courts will decide, and the case will come up on July 26 at 9 o'clock a. m. Somlyo is a piano agent and dealer and came to this city four weeks ago for the purpose of opening salerooms. He rented the store in the Lappin block formerly occupied by the Bower City bank. Here Mr. Somlyo established himself in business putting in a number of high grade pianos. On June 9 the store was opened and as time passed business did not come with a rush. On January 26 Mr. Somlyo thought it best to pack up and remove to Chicago. This he did without interference, but the city authorities were not asleep. They served an attachment on two pianos, which are still in the city. The city claims that Somlyo violated the city ordinance, as he was a transient merchant, and is therefore debtor to the city for a sixteen day period at ten dollars a day. Mr. Somlyo, who is now in Chicago, has been notified of the proceedings, and it is expected that he will be here to settle the matter.

SKIRTS AND JACKETS.

The Former Are Trimmed—Flowers, Feathers and Gauze For Hats.

Skirts are without doubt losing their simplicity and gradually falling victims to the increasing passion for trimming. More or less horizontal effects seem to be favored at present, sometimes arranged near the top of the skirt, sometimes at the foot. The apron shape is frequently seen and is rather pretty. Wool and mohair braids, flat bands of satin or velvet and ruffles are all employed on cloth, wool and taffeta gowns with excellent effect.

The plain skirt has by no means disappeared, for it is too becoming and convenient to be lightly relinquished. Never-

TAFFETA COSTUME.

theless as skirts grow smaller and less stiff they assume more frivolity, and the increasing tendency is toward full or plaited skirts and ruffles and other trimmings.

Jackets are decidedly short, have small, flat basques without godets or ruffles and are decorated or plain, as the fancy of the wearer may dictate. A simple finish of stitching may be employed or all sorts of applications of velvet and lace. Of course the more elaborate a jacket or cape is the less serviceable it is, for it cannot be worn on so many occasions. Where the allowance for the wardrobe is limited the safest way is always to try moderately plain garments, all of which go together well. Unless the exchequer is full it is not advisable to indulge in any of the vagaries of fashion.

The picture shows a costume of mauve taffeta. The skirt is trimmed with five ruffles of mauve mousseline de soie, with spaces between them. The bodice of mauve taffeta opens over a chemise of mauve mousseline de soie and is trimmed with two breasted like epaulettes of rich velvet embroidery on mauve silk, which are bordered with platings of mauve mousseline de soie. The shirred sleeves of mauve mousseline de soie are trimmed at the top with five narrow ruffles, and the collar of mauve mousseline de soie has two bunches of violets. The corslet is of nile green taffeta edged with narrow ruffles.

NOTES OF NOVELTIES.

Favorite Perfumes—Black and White Silks, Ecu and Mauve Costume.

Trousseau are becoming more and more elegant, the utmost daintiness reigning in the department of underwear. As for table linen, it is no longer requisite to lay in a vast stock of napkins and cloths to last for years, because now fashions for the table change almost as often as fashions for the wardrobe. Designs, materials, styles of lettering and embroidery vary greatly from year to year and involve continual change if the mistress of the house desires to keep up with the mode in its various capricious wanderings. As a matter of fact, there is something very attract-

SUMMER TOILET.

ive about the solid, old fashioned style of table arrangements—fine, white damask, heavy silver and cut glass and no frillery of lace or embroidery at all. There is a certain dignity about adopting a substantial, rich, but reserved style and keeping it through all vagaries of fashion.

It is the perfume par excellence at present. It is much like violet in quality. Powdered orris root placed in sachets will impart its scent to whatever it is placed in and is very agreeable to have among the clothing in drawers and wardrobes.

Very pretty black and white silks are worn this summer.

A picture is given of a costume the skirt of which is of ecru linen, embroidered with mauve flowers. It is full and is gathered at the belt over a lower skirt of mauve taffeta. A blouse of green taffeta with a very short basque, forms the bodice. It is double breasted and has a collar and revers of white taffeta, bordered with narrow guipure heading a ruffle of taffeta. The same sort of trimming adorns the wrist of the close sleeves. The front of the blouse is trimmed with two bars of guipure and steel buttons. The belt is of black velvet, the cravat of white tulle.

A Place For Dress Waists.

In these days, when space is a matter of deep importance in one's home and bedrooms and closets in apartment houses are so curtailed, the young housekeeper has to devise all kinds of makeshifts to replace the wardrobe and drawer space to which she has been accustomed. Couches are to be had made so that the top turns back easily and discloses an airtight storage space where nice dress skirts may be spread out at length and still be as accessible as if hung in a wardrobe. And now some one has solved the problem of where to put the betrimmed dress waists so that they shall not be crushed and still may be quickly got out, thus giving further relief to overcrowded closets.

Brass bedsteads are now made with two dust proof drawers underneath. The length of the drawers is the same as the width of the bed. One drawer opens at the upper end of the bed, and on the opposite side the drawer is at the lower end. The platted valance to match the draperies of the bed is fastened separately to the front of the drawers, and when they are closed they are not noticeable, as the folds hang together and the lace trimmed bed cover falls over the top of the valance. The drawers are so made as to clear away any doubts of those who may object to the idea on the score that they may become close and stuffy. There is a space between the closed top of the drawer and the bed, thus allowing ample circulation of air all around.—New York Sun.

Orange Woman's Club.

The Woman's club of Orange, N. J., held a most interesting session on March 24, when its annual election occurred. This marked the quarter century of the club's existence. It is one of the oldest clubs for women in the country. There were but four others in existence at the time of its founding. It organized with 15 members; now it has a membership of 300 and a long waiting list. The club has become a department club, and the recording secretary, Mrs. Stanley, read a brief review of the year's work, which was followed by reports from the chairmen of each department. Each department in turn furnishes the club programme for general meetings. The department of education furnished a programme upon coeducation, also one upon the education of the Indians.

The election of officers for the coming year gave the presidency to Mrs. Cushman, who has filled the place in a most able manner during the last year. The other officers were re-elected with the exception of Mrs. Stanley, who was not eligible for recording secretary, having held the place for the limit allowed by the club.

Needle workers have discovered that the threads of Madagascar grass curtains, pulled out, and used in place of embroidery silk, produce excellent results. This is the foundation of the new grass embroidery. These threads never fade or fray and will stand washing.

At the recent town meeting in Troy, Me., three women were elected school committee, as follows: Miss Alida L. Heald, Miss Bertha F. Hillman, Mrs. Georgia Tyler Woods. The vote was nearly unanimous and very enthusiastic.

Mrs. W. B. Ward is proprietor of an undertaking establishment in San Jose, Cal. She has a thoroughly equipped house and is up to date in all branches of her extensive business, which she has successfully managed for years.

USEFUL HINTS.

Cleaning Gold Embroidery.—About the Teeth—Dining Room Lights.

Gilt frames and other gilded decorations may be preserved from fly specks by passing over the surface a brush dipped in an infusion of looks. To prepare the infusion throw into boiling water a leek for every quart.

It is said that gold and silver embroidery which has become blackened by time and exposure to the air may be cleaned by spreading upon it bread crumbs which have been previously well heated in a saucepan. The crumbs are rubbed lightly on the embroidery with the palm of the hand, after which several layers of old linen are spread over the whole. When the crumbs are cold, they are shaken off, and the embroidery is beaten on the wrong side, and the face of it is brushed. Galleon of tarnished gold or silver may be rendered brilliant by moistening the darkened parts with warm alcohol.

A recipe for restoring black silk which has been spotted by water directs that it shall be boiled in ordinary bleached muslin slightly moistened and left in a damp place for 24 hours.

Early trouble with and disappearance of the teeth are almost always a result of lack of proper care, although there is a differ-

ence in natural constitution in this respect. Of course the teeth are to be brushed once or twice daily, but care must also be taken that the enamel is not injured by biting or pulling thread, cracking nuts, etc. Very fine powdered charcoal is a good dentifrice.

A picture is given of a girl's costume of red bengaline. The skirt is gathered at the belt and is trimmed around the foot and again half way up by narrow black galleon bands. The bolero, similarly trimmed, has square revers and opens over a bouffant front mounted under a pointed yoke. The belt of bengaline is closed by a silver buckle. The tight sleeves are slightly bouffant at the top.

VARIOUS NOTES.

How to Make Articles Fireproof.—Cucumbers For the Skin.

A simple recipe for rendering cloth, paper and cardboard noninflammable is to soak them in a mixture composed of 4 parts of borax and 3 parts of sulphate of magnesia dissolved in from 20 to 30 parts of water. This mixture must be prepared at the time it is to be used. After the articles have been dipped in it they must be allowed to drip and dry in the open air. The juice of cucumbers has from time immemorial had the reputation of being excellent for the complexion. A good way of preparing it for use is to peel the cucumbers, cut them in thin slices and put them in a glass bottle, covering them with alcohol of the best quality. The bottle should be closed hermetically and exposed to the sun for three days. The liquid is then to be strained and kept in closely stoppered vials. It will keep indefinitely and is to be applied to the face undiluted morning and night after the bath. The face should never be washed in really cold water, nor should it be washed too frequently, twice a day being usually sufficient, once on rising and the second time in retiring for the night. The hands are also washed too frequently, roughness

and redness being thereby induced. A little lemon juice rubbed on the hands will answer instead of a regular washing and leave them in better condition.

Redness of the face, so annoying a defect in the appearance of some persons, arises from many causes, among which are poor digestion, abrupt changes of temperature, tight clothing, close shoes and garters. No external application will cure the affliction as long as the root of the evil remains, and it is better to find out just what the cause of the trouble is before attempting to remedy it.

It is said, but with how much truth cannot be stated here, that poisonous mushrooms may be detected by placing a white onion, peeled, in the water in which the mushrooms are being cooked. If it remains white, the mushrooms are innocuous, but if it turns brown, blue or black they are poisonous. The flavor of an onion would be apt to overpower that of mushrooms, however, so that even if they were harmless many persons would not care to eat them after the test.

A new and remarkable coiffure is illustrated. The hair is waved all over and curled in front, being lifted behind, where short curls also appear. It is carried to the top of the head, where it forms an erect loop of considerable height.

Her Suggestion.

"Yes," said Mr. Snicksnack, "I do not like my name at all. They say that either the legislature or the district court will change it for me. Which would you apply to if you were in my predicament?"

"Well," said she, thoughtfully, "a minister would do for me." And three hours later it struck him that there was a mild hint in what she had said.—Cincinnati Commercial Tribune.

Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains this "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

jump at it. They're quick to see the advantages of Pearlline, quick to economize and save, quick to adopt all the modern improvements that make life easier. And these quick women are the ones that are likely to use Pearlline (use with out soap) in the right way, and to find new uses for it, and get most out of it.

Some Women

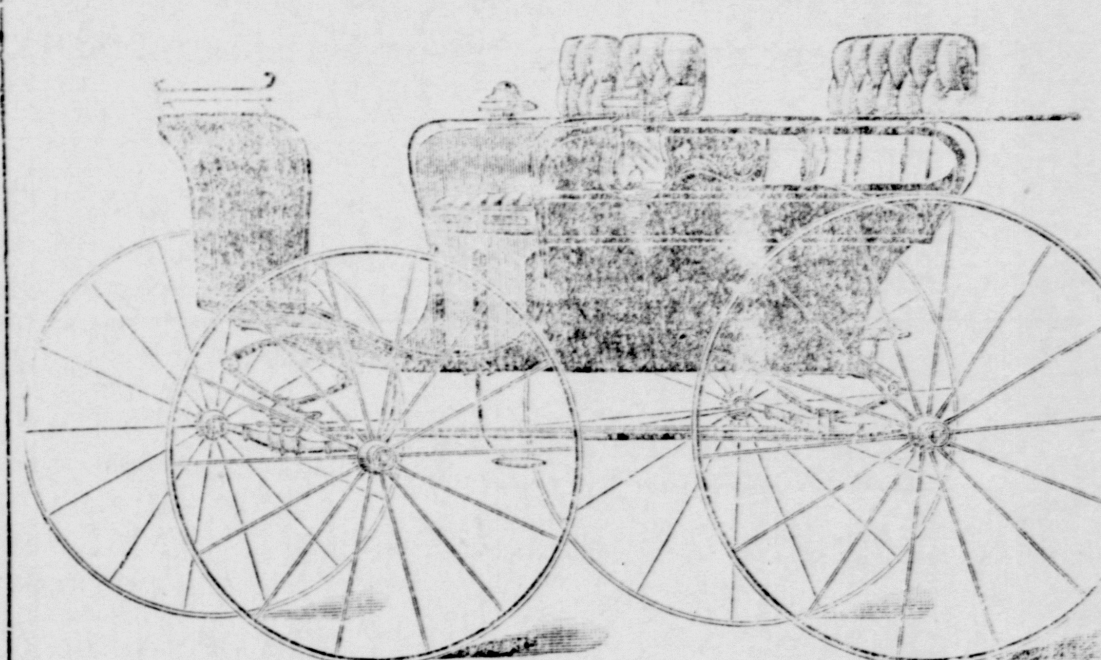

have to be driven to it. They wait until they can't stand the old-fashioned way of washing any longer. Then they get Pearlline. But ten to one they use it for only part of the work, or use it some way of their own, or use something else with it—and don't get half the help they ought to.

Send it Back

Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearlline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearlline, be honest—send it back.

Knew His Business.
"Poor papa," she said, "is feeling wretchedly."

"Indeed?" he returned, becoming suddenly interested.

"Oh, yes," she explained. "He's all used up. I don't know what is the matter with him, but I think it must be an aggravated attack of spring fever. He has hardly enough energy to move."

The young man roused himself. "Perhaps," he said, "this would be a good time for me to--er--speak to him about our--ah--engagement."

She rather regretted that she had to lie to him in this way to give him courage, but she could not forget that all is fair in love and war.--Chicago Post.

GOWNS AND SHOES.

What Wedding Guests Should Wear--Costume For the Tennis Court.

The guests at a fashionable wedding should never wear a wrap of any description, however light and fanciful. The gown should be rich and elaborate and quite uncovered. As for headwear, the little capote, with or without strings, a trifle which is a hat in name only and does not conceal the face or the hair, is the appropriate thing.

The tennis season is in full swing, and the usual demand for pretty gowns appropriate for the game has arisen. There is no regulation uniform, of course, but it is necessary that the costume should be light, loose and of a character to permit the free use of all the limbs. Tennis flannel is the preferred material, of course, because it is not heavy, is supple and comes in agreeable colors. The skirt of the gown should be rather short, flat in front and gathered at the waist behind and should have neither lining nor stiffening. A blouse bodice, sometimes cut down a little at the throat in front, is usually worn, with a

TAFFETA GOWN.

flat collar and revers, under which passes a large silk scarf tied in a careless knot. The ends may be tucked in the belt, which should be of kid or silk and not wide.

The illustration shows a costume of pink striped taffeta in two tones. The skirt is trimmed with narrow plaitings of pink mousseline de sole running upward at each side of the tablier. The bodice of plaited taffeta has a large collar and plastron of venetian lace and is trimmed with horizontal plaitings of pink mousseline de sole, which simulate a bolero back and front. Similar plaitings form caps at the top of the close sleeves. The collar and belt are of green velvet. The pink straw hat is trimmed with pink flowers, green leaves and black silk gauze.
